Chief Executive Officer

Social Value International

Social Value UK carries out assurance services on behalf of Social Value International. Social Value International is the global network focused on social impact and social value. We are the global network for those with a professional interest in social impact and social value. We work with our members to increase the measuring, managing and maximising of social value from the perspective of those affected by an organisation's activities, through our Social Value Principles. We believe in a world where a broader definition of value will change decision making and ultimately decrease inequality and environmental degradation.

Disclaimer: This Social Value Management Certificate is not about reporting social value and it does not provide proof or a statement that the organisation or programme is creating a particular amount of social value. Social Value International will not be responsible for any action or decisions that an organisation or any third party takes based upon this certification.
