

# Tip, collect and go

Your one stop shop for construction waste  
and material collection

Heidelberg Materials

## Heidelberg Materials UK - Recycling division

As part of our commitment to reducing the use of primary aggregates and increasing the use of secondary aggregates and construction waste in our products, we have created a Recycling division within Heidelberg Materials UK that sits alongside our other products and service divisions of Concrete, Cement, Aggregates, Asphalt and Contracting. We have also added to our UK recycling business:

- **Mick George Limited** – East Anglia and the Midlands
- **B&A** – Bristol and Avon

At our Heidelberg Materials recycling centres you can **tip** construction waste, **collect** recycled materials, concrete and asphalt, and just **go**.

Appleford Recycling

Site 1  
Appleford recycling  
OX34 4PW  
Permit number: EPR/IGB3954AC  
Contact: 07831141392  
Emergencies: 0800 587 0999

Richard Wilcock - Recycling Director  
James Whitelaw - Managing Director,  
Recycling Division

## We offer a complete range of benefits and services to all construction professionals:

Professional and personal customer service on site

Collect service using our tipper and grab hires

One stop shop – tip your waste, collect recycled material, concrete, asphalt, and go

Fully-accredited site for receiving dry waste

Credit accounts available

Competitive rates for clean concrete or hardcore waste (no pre-screen)

Caters for all customers, from collect projects to major projects

Add to your recycling credentials through using our facilities

Brownfield disposal solutions to reduce cost and landfill charges

Cash sales via card taken at site

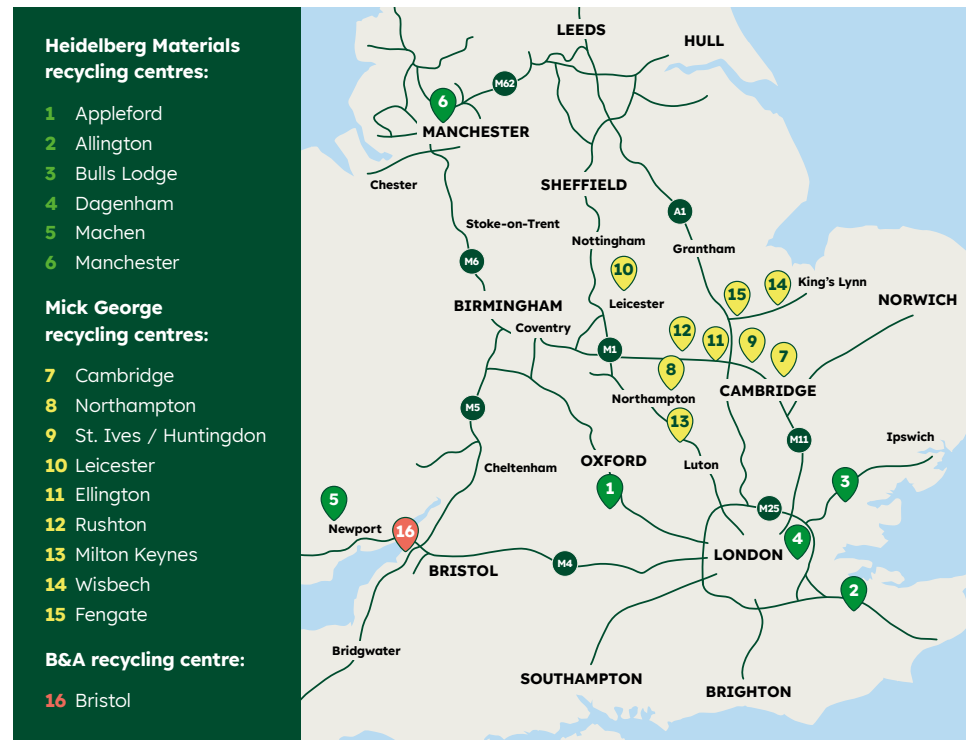

# Tip your construction waste with us

Our first six Heidelberg Materials recycling centres are located in the South East, South Wales and Manchester area, and can deal with a range of waste materials. Over the coming months, we will be extending these sites across the UK.

We also have alternative recycling centres within the group at Mick George and Bristol & Avon.

## Tip with us:

- Concrete
- Construction and demolition waste
- Recycled Asphalt Planing (RAP)
- Hardcore
- Utilities waste
- Mixed inert soil and aggregates

## Collect a range of primary, recycled aggregate, concrete and asphalt – and go

At all Heidelberg Materials recycling centres, we produce a range of products for you and your customers:

- **Recycled aggregates (6f5 and Type 1)**
- **Primary aggregates (High PSV, limestone, gravel and sand)**
- **Asphalt**
- **Concrete**

All our waste is approved to the WRAP protocol, the Specification of Highway Works (SHW) and is tested. We can also offer 'Brownfield solutions' for soil testing, report assessment and cost-effective disposal options using the knowledge and capability of our whole group including Mick George and B&A businesses.

Recycled aggregates

Primary aggregates

Asphalt

Concrete
