

HANSON

> CPD EVENTS

2019

Powercrete®

Our specialist Powercrete® and CableCem® concretes are designed to aid power transmission in HV and UHV power systems. In our CPD, we'll demonstrate the advantages of these impressive materials.

TioCem®

Using a photocatalytic reaction, TioCem® reduces urban pollution in our cities by neutralising harmful gases such as NO_x. In our CPD, we'll demonstrate the benefits of TioCem® and the advantages of specifying it for your projects.

Regen®

Our Regen® cement replacement has the ability to increase the sustainability and durability of concrete. In our CPD, we'll demonstrate the benefits of Regen® and the advantages of specifying it for your projects.

> CPD PRESENTATION DATES

To book your place at an event, or to arrange for the CPD presentation to be delivered at your practice, register your interest at hanson.co.uk/cpd

Morning sessions are 8.30-9.45am.

Lunchtime sessions are 12.30-1.45pm.

Light refreshments and drinks will be provided from 8am at morning sessions, and 12pm at afternoon sessions.
